Extended Original Warranty Protection

\$250.00

This warranty covers repair due to internal component failure, external repairable damage and remakes due to fit issues. This coverage includes a one-time replacement for loss, theft, or total destruction. All replacements will be with an equivalent instrument and a processing fee may apply. The original warranty may be extended prior to expiration up to a total of five years.

Worry Free Deluxe Loss, Damage and Repair Protection

\$384.00

This warranty provides coverage for all makes and models. This coverage includes repair due to internal component failure, external repairable damage and a one-time replacement due to loss, theft, or total destruction. Instruments must be in proper operating condition at the time of warranty purchase. All replacements will be with an equivalent instrument and a processing fee may apply.

Worry Free Loss and Damage Protection

\$134.00

This warranty provides for a one-time replacement for loss, theft, or total destruction and is for any make or model instrument that is in proper operating condition at the time of warranty purchase. All replacements will be with an equivalent instrument and a processing fee may apply.

Worry Free Repair Protection

\$275.00

This warranty is for all makes and models. It protects for all repair due to internal component failure. Instruments must be in proper operating condition at the time of warranty purchase.

*Loss and Damage claims for hearing instruments purchased after January 1, 2011 will be assessed a processing fee.

Hearing aids are sophisticated miniature devices that can provide years of benefit when cared for properly. The following are a few simple reminders about the care of your hearing instruments:

- Never attempt to repair your hearing instruments. Do-it-yourself repairs usually cause more damage than good. Any problems should be reported immediately.
- Never wear your hearing instruments in the shower or while swimming.
- If your hearing instruments do get wet, never try any "quick drying" methods such as microwaves, hair dryers or ovens. Consult with us if your instruments are inoperable due to moisture.
- Always place your hearing instruments in a safe place out of reach of pets or small children.
- If your hearing instruments sound distorted or unclear they may be in need of repair and you should consult with us immediately.
- Visit us at least twice a year for follow-up care and routine service. Hearing loss is dynamic and we recommend that you have your hearing tested at least once a year to ensure you are receiving maximum benefit from your hearing instruments.
